IT and cyber technology applications; systems engineering; ERP, EA, and BI applications; project and acquisition management; and facilities management. BTAS offers solutions that emphasize cost, schedule, performance, and risk management, and we maintain a Top Secret facility clearance with the capability for Secret storage at our corporate headquarters located in Dayton, Ohio. Our diversified client base and contracts cover the full spectrum of Department of Defense, government, and commercial industries throughout the United States. BTAS takes pride in our excellent bid performance history on task order contracts and on the numerous awards we have won, including NASA's George M. Low Award for Quality and Excellence and the Small Business Administration's Small Business of the Year.
